SUMMARY

I am a Product Owner and Web Developer with a strong technical background, from systems and networks engineering to full-stack web development. I am specialised in content management systems (CMS) and more specifically Drupal.

EXPERIENCE

Web Developer & Graphics Designer

VirtuOS IT SA, FELIX SA

2020 – 2025

Sierre, Switzerland

- Developed web-based business tools using Vue.js and Node.js to streamline operations, integrating real-time data from Odoo API. Developed, published and maintained the company's public website using Drupal 10 CMS.
- Led the design and production of all visual marketing materials, including logos, flyers, brochures, advertisements, and customer publications.
- Created and maintained a consistent visual identity across all brand assets and communication channels.

Product Owner & Researcher

UDG Alliance

2018 – 2019

Geneva, Switzerland

- Worked as a Product Owner & Researcher focused on developing an IoT online multi-vendor marketplace in the scope of the Synchronicity IoT European project.

Product Owner & Senior Web Developer

PwC Experience Center

2016 – 2017

Zurich, Switzerland

- Managed medium- to large-scale web projects as Product Owner: facilitated agile transformation, resource planning, backlog grooming, Scrum events, stakeholders' communication.
- Worked as Senior Web Developer on various projects primarily using Drupal 8 and performed ongoing maintenance of client websites.

Web Developer

hkdigital, blue-infinity

Haier Group

2012 – 2015

Geneva, Switzerland

Shanghai, PRC

- Delivered full-stack web development using Drupal 6 & 7 CMS, Magento, and other web frameworks.
